

8550-SWR

Standard Wax/Resin Thermal Transfer Ribbon

A highly versatile formulation with superior print quality on a wide range of papers and synthetics as well as the widest possible range of spot-coated and flood-coated label applications. 8550 prints at low temperatures and high speeds with excellent edge definition and image density. Prints at high speeds (12 IPS) delivering crisp, rotated bar codes. SWR prints at high resolutions which enables dark, dense images and improved scan rates.

RECOMMENDED APPLICATIONS:

Pharmaceutical & Healthcare

Food & Beverage

Inventory & Logistics

Horticulture

Outdoor

Textile

RIBBON PROPERTIES:

Ink Formulation	Wax/Resin
Color	Black
Base Film Thickness	4.8 µm.
Total Thickness	8.1 µm.
Ink Transfer Temperature	185°F/85°C
Print speed up to	12 IPS

SUBSTRATE COMPATIBILITIES:

Paper
Economy Synthetics
Specialty Materials

CERTIFICATIONS:

FDA

REACH

ROHS

UL

Store between 5-35°C, 20-80% relative humidity, keep away from heat and direct sunlight.

The information on this data sheet was obtained in manufacturer laboratories and is subject to change without notification. Please note that measured values may vary slightly when tested in a different environment.

Polyester	●	●	●

Why choose Genuine Supplies?

Guaranteed Quality

Genuine Supplies are manufactured to strict quality standards to ensure optimum performance and user satisfaction.

Guaranteed Compatibility

From core to cut, Genuine Supplies are designed to work flawlessly through your TSC & Printronix Auto ID printer.

Consistent Performance

From the first label to the last and from one order to the next, Genuine Supplies will provide clear, crisp imaging and consistent performance.

"No Worry" Reliability

Quality control, manufacturing and component standards ensure "No Worry" reliability.
