

TSC's line of thermal printer cleaning supplies is designed to support two crucial objectives:

1. Ensure clean, consistent printing with optimal image clarity and density
2. Maximize the life of the thermal printhead and printing mechanism

With a simple cleaning routine, you can be rewarded with optimum operational efficiencies, reduced service calls and maximum equipment life.

Adhesive, dust and environmental contaminants all contribute to:

- Print voids
- Paper and label jams
- Barcode scan issues
- Poor print quality

Cleaning Cards

Designed to remove the most stubborn contaminants from the thermal printhead and the full circumference of the rollers.

Cleaning Swabs

Effectively cleans the thermal printhead, platen roller and other interior surfaces. A foam tip on a slender, 5" applicator makes this an easy-to-use solution.

Cleaning Pens

Effectively removes dirt, ink and other environmental contaminants from easily accessible printheads.

Cleaning Wipes

Pre-Saturated wipes designed for cleaning the interior of the printer as well as the thermal printerhead.

PART NO.	ITEM	DESCRIPTION	QTY/CTN	CTN WEIGHT
36-000010-00LF	Cleaning Card, 3"	Presaturated cleaning card, 3"W x 6"L	15	1
